## PROFESSIONAL EXPERIENCE

### Responsive Portfolio Website [Academics]
Kakatiya degree college, hanamkonda

- Designed and developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript.
- Implemented modern UI/UX principles to ensure smooth navigation across desktop and mobile devices.
- Showcased projects, skills, education, and contact details in a structured and user-friendly layout.
- Optimized website performance and responsiveness for different screen sizes and browsers.

### Netfilx clone website

- Developed a Netflix clone website replicating core UI and layout of the original platform.
- Implemented responsive design for seamless viewing across mobile, tablet, and desktop devices.
- Created dynamic movie sections such as Trending, Popular, and Top Rated using APIs/static data.
- Focused on clean UI, smooth scrolling, and user-friendly navigation.

### Image Prompt Generator AI

- Developed an AI-powered image prompt generator using JavaScript and AI APIs.
- Applied prompt optimization techniques to generate high-quality image descriptions.
- Added features like keyword expansion and style-based prompt suggestions.
- Ensured responsive design and smooth user experience.
